Office Action Summary

Application No.

10/026,270

Applicant(s)

BICKING, ROBERT E.

Examiner

Kenneth B. Wells

Art Unit

2816

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 22 April 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-28 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 1-28 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
- ☐ Certified copies of the priority documents have been received.
 - ☐ Certified copies of the priority documents have been received in Application No. _____.
 - ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
- * See the attached detailed Office action for a list of the certified copies not received.

Art Unit: 2816

1. The amendment filed on 4/22/05 has been received and entered in the case.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claim 10 is objected to because of the following informalities: "said output voltage" lacks antecedent basis. Appropriate correction is required.
4. Claims 2 and 7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is not understood what is meant by the limitation that the first and second voltage "comprise" a supply voltage in claim 2.

It is also not understood what is meant by the limitation that the supply voltage is "equivalent to said first voltage, said second voltage or an electrical equivalent thereof" in claim 7.

Art Unit: 2816

5. Claims 1, 3-5, 7-10, 15, 17-19 and 21-24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Schroeder et al.

See paragraph four of the previous office action for the details of Schroeder et al. As to the new limitation that the signal conditioning circuit is made from InSb, this would have been obvious to one of ordinary skill in the art, as noted in the previous office actions, as thus cannot be relied upon to define over the reference. As to claims 2, 11-14, 16 and 25-28, note paragraph six of the previous office action.

6. Claims 1, 6, 15 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over either Sudo et al or Eck et al.

See paragraph five of the previous office action for the details of these two references. As to the new limitation that the signal conditioning circuit is made from InSb, this would have been obvious to one of ordinary skill in the art, as noted in the previous office actions, as thus cannot be relied upon to define over the references.

7. Also note several of the other references of record that are also seen to anticipate at least independent claims 1 and 15, as noted in the previous office action.

Art Unit: 2816

8. Applicant's arguments filed on 4/22/05 have been fully considered but they are not persuasive.

The argument that Schroeder et al does not teach generating a voltage value that is utilized to automatically calibrate an MR half-bridge signal for temperature compensation purposes is not persuasive because, as applicant is well aware, this is merely an intended use recitation which cannot be relied upon to distinguish the claims over a reference.

The further argument regarding InSb, is addressed above (and was addressed in previous office actions).

The arguments against Sudo et al and Eck are similarly not persuasive for the same reasons noted above with regard to Schroeder et al.

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 2816

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kenneth B. Wells whose telephone number is (571)272-1757. The examiner can normally be reached on Monday through Friday from 8:30am to 5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Timothy P. Callahan, can be reached at (571)272-1740. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on
